Nanaimo Lifeline Program Report 2013-2014

"The number of clients in the Oceanside area has held relatively steady during 2013-14, although the Nanaimo area had a slight downturn in client numbers. This was partially due to one facility introducing its own call buttons and opting for the "in-house" system. Also, there were fewer new installations in 2013-14 compared to the previous five years. This is the first year with a downturn in client numbers since beginning in 1987.

If you would like to help someone with limited resources afford Lifeline, you can do so by donating to the *Silent Guardian Fund*.

New to Nanaimo Lifeline in the last year is "Project Lifesaver". Project Lifesaver is an international support system wherein users who are prone to wander from home wear a transmitter bracelet that can be tracked by Search and Rescue teams. Clients may have Alzheimer's disease, dementia, autism, Down Syndrome, developmental disorders, or brain injury. On average, clients who become lost are found within 30 minutes. Nanaimo Lifeline has partnered with Arrowsmith Search & Rescue and Nanaimo Search & Rescue to benefit Central Island communities. Contact Nanaimo Lifeline about their monitoring services or Project Lifesaver call 250-739-5770 or toll-free from Oceanside 250-947-8213 or email lifeline@nanaimohospitalfoundation.com"

Code Brew

The heart of NRGH, Code Brew staff, distributes refreshments to staff, patients, and visitors each day. In July 2014 Code Brew celebrated its 14th anniversary as an essential part of the Foundation family. Established in 2000, Code Brew was a model that broke custom as not-for-profit organizations did not traditionally own and operate revenue generating businesses. However, it was the second business the Foundation owned, Nanaimo Lifeline was the first.

Since it opened for business Code Brew has continually evolved to meet the needs of changing demographics. It has been a platform from which young people could gain experience, and a venue where volunteers could give back. In the last fiscal year 16 part-time and full-time employees ensured the kiosk ran smoothly. The majority of these employees are high school or university students in their first jobs. Enhancing service and fundraising capacity, Code Brew is also helped by 14 volunteers. The coffee kiosk is open 6:30am to 8:30pm daily every day of the year (some holidays have shorter hours). All proceeds are reinvested into healthcare on Central Island.
