INTRODUCTION

Working with the Board of Directors of the Nanaimo & District Hospital Foundation it was agreed that the CEO would develop a comprehensive strategic plan in preparation for the next 3 - 5 years. The plan was originally presented to the Board in March, 2017 and updated in the spring of 2018.

- Assess the Foundation’s strategic environment
- Review the Foundation’s vision and mission statements that guide the Foundation’s decisions and actions
- Discuss and confirm the Foundation’s priorities and strategies for the next three years
- Identify key tactics that will support the achievement of the confirmed strategies
- Discuss how the Foundation’s performance will be monitored and evaluated against stated strategic directions
- Celebrate the successes and achievements of the staff and board

Approach

Building on the strong community presence currently enjoyed by the Foundation, under new leadership, we are poised to pursue a renewed and bold strategic direction – one envisioned to create strong community relationships, an enriched donor experience, and a true partnership with Island Health in support of healthcare excellence within Central Vancouver Island.

Through increased community presence, visibility, and innovation, the Foundation is focused on increasing the funds it raises to support our regional hospital and other healthcare facilities, while honouring our long-standing values of donor-centred fundraising, fostering relationships, and living by our ethical and professional standards.

As the Foundation’s fundraising activities grow, we recognize that the time has come to secure our position of philanthropic leadership and to publicly exhibit our culture of excellence.

PHILOSOPHY & CORE VALUES

The Nanaimo & District Hospital Foundation was founded on December 30, 1977 as a means for grateful patients and loved ones to support Island Health facilities. Today, we purchase vital equipment to ensure healthcare excellence in the Central Vancouver Island region. Our donors help Island Health to provide the highest quality health care services for everyone who needs them right here at home. Since inception the Foundation has stewarded donations to support improved facilities and has assisted in the funding of leading edge medical equipment to ensure our healthcare professionals have the tools they need to do their jobs.

The Nanaimo & District Hospital Foundation has become Central Vancouver Island's charity of choice. With the philanthropic support of the business & professional community, service organizations and the residents at large, we are the role model for responsible, ethical giving and we help advance excellent healthcare. The Foundation's organizational values mould and direct the considerations, decisions, and actions of our Board of Directors and staff. These values reflect and shape the culture of the Foundation.
